Notes To Financial Statements

Note 1: Organization

United Poultry Concerns, Inc. (UPC) was incorporated in Maryland in 1990 as a non-profit corporation that addresses the treatment of domestic fowl in food production, science, education, entertainment, and human companionship situations.

United Poultry Concerns seeks to make the public aware of the ways poultry are treated by our society and elsewhere in the world. They assist the public to see how treatment of these birds affects health, ethics, education, occupational safety, and the environment. They inform people about and actively promote alternatives. UPC does this through extensive investigations, their chicken sanctuary, public talks, writings, mailings, conferences, information displays, and film presentations using such sources as public interest groups, animal advocacy organizations, poultry trade publications, government agencies, and scientific journals and proceedings.

Note 2: Expenditures

Of the total costs incurred for the year ended December 31, 2004, UPC incurred 86.19% for program services, 5.97% for administrative operations and 7.84% for fundraising.

Note 3: Summary Of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting.

Donated Materials and Services

Donated materials and equipment are reflected as contributions in the accompanying financial statements at their estimated value at the date of receipt. The organization recognizes contributed services to the extent the services received create or enhance non-financial assets or require specialized skills that would be purchased if not provided by donation.
Note 3: Summary Of Significant Accounting Policies (Continued)

Revenues

Revenues from unrestricted contributions are recognized when received. UPC reports gifts of cash and other assets as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Donor restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted support.

Revenue from contracts is recognized as the related qualifying expenses are incurred. Revenue is deferred when funds are received but not yet expended for the contractual purpose.

Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid instruments with original maturities of three months or less. Cash and cash equivalents do not include temporary cash held in custodial accounts or restricted investments.

Inventory

Inventories are stated at the lower of cost, determined by the first-in, first-out basis, or market.

Property and Equipment

Property and equipment are stated at historical cost. The cost of maintenance and repairs is recorded as expense when incurred. Depreciation is computed using the straight-line method over the estimated useful life of the assets, which range from five to 39 years. It is the policy of United Poultry Concerns, Inc. to capitalize all property and equipment acquisitions in excess of $500.

Income Taxes

United Poultry Concerns, Inc. is exempt from federal income tax on related income under Section 501(c)(3) of the Internal Revenue Code. The organization is classified as other than a private foundation.
Note 3: Summary Of Significant Accounting Policies (Continued)

Functional Allocation of Expenses

The costs of providing the programs and other activities have been summarized on a functional basis in the accompanying statement of activities. Accordingly, certain costs have been either directly charged to the programs and supporting services as incurred or allocated based on usage for items such as depreciation and salaries.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain report amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 4: Investments

As of December 31, 2004, the aggregate carrying amount of investments by major type is as follows:
